

YOUR PRESCRIPTION, YOUR CHOICE

Your local Integrated Care Board (ICB) has set up a **Centralised Prescription Service** in your area.

This means you'll now order your bladder or bowel products, such as catheters or stoma bags, through this service. Your nurse or healthcare professional will talk you through what to do and help you get started, and when you place your order, you can choose the home delivery provider that feels right for you.

If you ever feel that someone is trying to influence your choice, NHS England can help:
0300 311 22 33, england.contactus@nhs.net

How Rapidcare can help you

Once you've **nominated Rapidcare**, your prescription is sent directly to us.

Your first order includes **complementary items**, like dry wipes and a wash bag.

Your items are sent **as soon as your prescription arrives**, making delivery simple.

We pack everything safely and privately, with thoughtful and **discreet packaging**.
